These unique opportunities allow students to enhance their educational experiences through main campus classroom instruction, fieldwork, and instruction abroad. Students enroll in the International Programs section of a spring semester class and spend the semester on campus in Tallahassee. During Spring Break, students will go abroad with their peers and professor, reinforcing and expanding what they have learned by exploring foreign locations through the lens of their subject of study. Courses offered make use of the city as a classroom, expanding upon the main campus classroom work, tailoring their activities to the cultural sites around them, and using the Spring Break time as a period of discovery from which students return home with broadened horizons and a better understanding of what it means to be a global citizen.

Listed on these pages you will find brief synopses of the Spring Break programs offered for the spring 2018 term. See our website for more detailed program information, including courses and class descriptions.
